A SEASON FOR GIVING

*"Tis the Season" of harmony, good will and caring
It's a time to acknowledge our plenty by sharing
We exchange special gifts all across our great nation
One gift bought from a store, one a handmade
creation.*

*In our world, it's quite easy to drive to the mall
Or make mail order choices with a simple phone call
One can fax in an order or even "dot-com" it
Any method will do, if one gets pleasure from it.*

*For in giving, we're forced to think not of ourselves
Nor even of Santa Claus, reindeer and elves
But instead to consider the needs of another
Be it charity, co-worker, best friend or brother.*

*There are all kinds of gifts we can give those we love
Including some kinds we don't often think of
There are gifts for the body and gifts for the mind
And there're still some more gifts, the most personal
kind.*

*They're the gifts of our talents, our skills or our art
Contributed freely and straight from the heart
They're the gifts of our time or the gifts of our aid
When we give of ourselves with no debt to be paid.*

*Yes, this world will be better when we all believe
That it's better to give than it is to receive
Embracing this practice with warmth and good cheer
Throughout every season, each day of the year.*

A MASTERPIECE CELEBRATING THE LIFE OF JESUS CHRIST... "LIGHT OF THE WORLD!"

We of *Creative Woodworks & Crafts Exclusive Patterns* were inspired with a vision of a project depicting Jesus' life. We shared this vision with our close friend and talented artist Dirk Boelman, who translated it into this magnificent pattern. The project was sawn and developed by Special Projects Editor Wes Demarest.

"Light of the World" measures 21½" x 25" and is not a beginner's project. It comes in a beautiful pattern booklet, with a durable 4-page full-color cover wrap, lots of step-by-step photos, detailed instructions, and full size patterns. The project is replete with symbolism, all of which is thoroughly explained in the booklet.

To Order: simply send check or money order (U.S. funds only) for \$19.95 (and make payable) to All American Crafts, Dept. G, 243 Newton-Sparta Road, Newton, NJ 07860, Attn. R. Becker. To order by credit card (Visa, MasterCard, Amex), call (973) 383-8080, Ext. 104, and ask for Marie.

Plywood Price Plunge Prompts Post-Y2K Peeler Parties

GLADIBOTSTOCK, RUSSIA - Amid jubilant cries of "na-na-na-na, our price is lower", the plywood peelers of this small Baltic enclave danced until dawn with the knowledge that they would soon be the largest producers of scrollsaw plywood in the world. Scrollski Plywoodavich, owner of several birch woodlots in the area, declared "as soon as our wood gets to *Heritage Building Specialties*- America's finest wood source- all America will be using Scrollski's Plywood I bet".

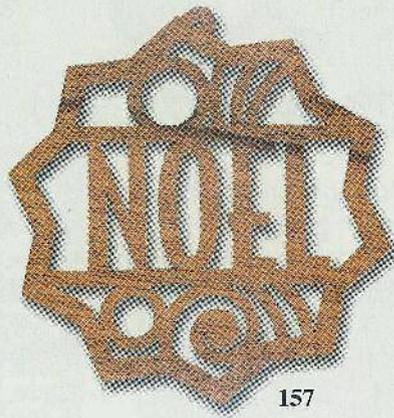

This "Baltic Birch" plywood is the ultimate plywood for scrollwork or fretwork. All the plies are birch, with no inner voids so the edges finish beautifully. Heritage sells Scroll-PLY that is always clear and perfect on one face, though the back may have an occasional plug. According to Heritage mascot Sawdust Sam, "special size pieces can be cut, all you have to do is ask!".

Below: Table showing current **LOW, LOW** prices for Scroll-PLY, the plywood you don't have to disguise.

Once you try these extraordinary scroll saw blades, you'll be "hooked" forever! Experience smooth, trouble-free cutting through even the thickest of hardwoods, and you'll see why these blades are supreme!

***No drifting!**

Some blade manufacturers do not "set" their saw-teeth, while others set the teeth only one way. We set our teeth both ways, and also insert a raker tooth to ensure perfect tracking and clean cuts every time.

SUPPLIES

Wood of choice – one piece each
1" x 1" x length of ornament
Tools: scroll saw with No. 3
blades; drill with 1/16"-Dia. bit
Temporary-bond spray adhesive
3/4"-wide cellophane tape

INSTRUCTIONS

These ornaments are fun, easy and fast to make. As you will note from the photograph, the ornaments can be cut solid or with the frets cut out. They can also be painted or left natural. Just have fun and let your own imagination put its' special stamp on the project. Most any type of wood can be used; however, if you are new to compound sawing, try starting with sugar pine, white pine or basswood. For a bigger ornament, try enlarging the patterns 150%.

Cut out the pattern along the solid rectangular border. Using spray adhesive, adhere the pattern to two sides of the wood block by folding the dashed line on a corner of the block. **Note:** you can use plenty of adhesive as the pattern will not need to be removed when you're done, as with most scroll saw patterns.

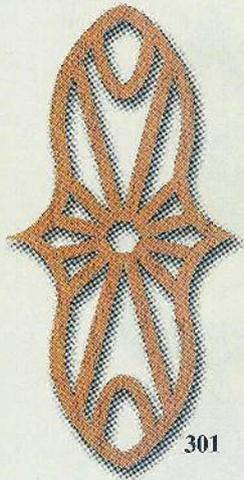

Drill starter holes in the frets with a 1/16"-Dia. bit. Using a No. 3 scroll saw blade, cut the left side of the pattern in one continuous line, leaving the waste pieces in place for stability. Allowing the figure to rest naturally in the block, pinch the pieces together and tape around with the cellophane tape. Next, cut the right side in one continuous line. Gently remove the figure from the block and you're done!
