THE 2024
RESOURCE
GUIDE

The custom cabinet industry's best software— at a great price

Get the tools you need to design and detail all your jobs.

With Mozaik, you can easily match your exact construction method and quickly create unique custom cabinets on the fly, including all CNC operations. It's fast, simple and accurate.

The software is pre-loaded with framed & frameless cabinets, commercial casework, closets, CNC MDF doors and CNC dovetail drawers. It can nest your parts and output 100% machine-ready G-code for production on your flat-bed CNC router.

It's not too good to be true.

Move beyond the limits of your current software. See for yourself why shops all over the world are choosing Mozaik.

Mozaik Manufacturing™	\$95/mo
Mozaik CNC	\$150/mo
Mozaik Enterprise	\$295/mo

Mozaik is now part of the Cyncly group

Forrest Sharpening

Helps Prevent Bad Cuts Like These

Abrasion, pitch buildup, micro chipping and poor sharpening jeopardize the life and performance of even the finest carbide-tipped blades and dado sets. Our expert factory sharpening will help protect your investment. We handle all types and makes of blades. Typical turn-around is just 4 to 5 days.

We've been the leader for over 60 years, so contact us today.

FORREST
The First Choice of Serious Woodworkers Since 1946

HARD & SOFT WOOD DIFFERENCES

The differences between hardwood and softwood are numerous. Hardwood trees have broad flat leaves while most softwood species exhibit needle-like leaves.

Hardwood trees will lose their leaves in the fall, and most softwood species are known as “evergreen” because they retain their foliage year-round. But for the woodworker two main things set them apart.

First, hardwood trees grow at a much slower rate than softwoods. This makes the hardwoods more dense and as a result, more durable than softwoods. Because of the slower growth rate, hardwood lumber is more expensive than its counterpart.

Second, softwood has natural resins and oils in the wood that most hardwoods don't have. During the sanding process, the resins and oils will load or clog your sandpaper during use. It is important to understand this and utilize the features built into Klingspor sandpaper that will help keep the loading or clogging at bay and extend its life.

Contact our product support department, and allow us to explain the benefits of a closed coat for hardwood and an open coat and stearate coating for softwood.

ProductSupport@klingspor.com

There's a ShopBot for every size project.

ShopBot's array of CNC routers are used in prototyping, full-production cutting, carving, machining, and milling in a variety of materials, including wood, MDF, plastics, foam, and non-ferrous metals, like aluminum. Our full line of

machines is oriented to be used for both standard and specialty operations. They are affordable, yet deliver the professional power and precision associated with heavier and more expensive CNC equipment.

ShopBot Desktop
24" x 18"

ShopBot Desktop MAX
36" x 24"

ShopBot Desktop MAX ATC
36" x 24"

ShopBot Buddy® 32"
ShopBot Buddy® 48"

PRSalph ATC
96" x 48" and larger

Learn more about the full line of ShopBot CNCs at shopbottools.com
Then give us a call at **888-680-4466** and we'll help you choose the right machine for your interests.

EDGEBANDING SOLUTIONS

Building Trust. Creating Together.

DURABLE | PRECISE | RAPID | EFFICIENT

RAPIDEDGE PRO | EDGE BANDER

From cabinet parts to cabinet doors, this edgebander can do it all.

The new Cantek RapidEdge Pro Automatic Edgebander is the top-of-the-line solution designed to make edgebanding a breeze. Its intelligent design can automatically determine the size of the processed material, increasing accuracy and minimizing material waste resulting in increased efficiency and throughput. Upgrade to the RapidEdge Pro today and experience the difference yourself.

THE PaintLine™

ProDryingRack Transport (PDRTR)

Transport finished cabinet doors safely and conveniently

- Holds 20 cabinet doors in a range of sizes
- Prevent marks and damage during transit
- Works with standard L-Track cargo tie down systems
- Folds for storage
- Optional hand truck available

Save Time • Space • Effort

NEW SideShift Auto Positioner

Double pockets, with screws... in under 4 seconds!

Get two perfectly aligned, low angle, 6° pockets *with screws*, when you add the SideShift Double Pocket Auto Positioner to the CSI 1.5D. Easily attach SideShift to CSI's work deck and away you go: one push of the foot pedal for two pockets, with screws, all in under 4 seconds.

Ideal for face frame production.

THE PERFORMANCE OF THESE BITS ARE
**OUT OF THIS
WORLD**

— THE ONLY —
SPEKTRATM
EXTREME TOOL LIFE COATING

The original colorful extreme coated SpektraTM router bits feature a micro-thin nACo ceramic coating that enables the tool's cutting edge to retain crucial sharpness and lubricity. This provides longevity and produces cutting results of the highest quality. Coating prevents high heat and oxidation which is detrimental to cutting tool performance.

Thickness planer

T45

The MARTIN T45: Greater precision is in reach

The T45 planer produces ideal conditions in your production line: quick and intuitive set-up, whisper quiet operation, and cleanly planed surfaces,. The workpiece is driven through the machine by rubber feed rollers and guided by pressure bars which hold the material to the machine table with significant force. The four supporting spindles absorb this force while ensuring accurate machining from the Tersa blade or optional X-Plane segmented cutter heads. This combination of robust and accurate processes ensure the finest and most consistent end product.

With a **ShopBot CNC**, you can increase production throughput while minimizing material handling.

For example, you can drill shelf pin holes, cut rabbets and dados, and profile-cut the completed panel.

The operator only needs to handle the full sheet once to load the machine, and then remove the perfectly cut parts that are ready for assembly.

Thanks to the affordability of ShopBot's professional grade CNC machines, the technology of manufacturing cabinet boxes, doors, drawer fronts, shelves, and even countertops, is well within the reach of smaller shops, not just large cabinet manufacturing facilities.

See our full line of CNC machines at ShopBotTools.com
Then give us a call at 888-680-4466. We'll help you find the machine that works best for your needs.
