Dear Fellow Railfan,

Though only 139 were built, the GG1 – an electric locomotive entering service with Pennsy in 1935 – remains a favorite of railfans with its distinctive vertical front-end silhouette. During its career, which spanned nearly five decades, it set speed records and headed numerous famous funeral trains (including those of Franklin Roosevelt and Bobby Kennedy).

Our cover print, captured in a Philadelphia

GG1 Electric Locomotives

Sporting authentic paint schemes and markings, these HO scale replicas of GG1s – electric locomotives first used in the Northeast in the 1930s – feature LED directional lighting with a dimming function, 12-wheel drive, twin operating metal pantographs (powered by an overhead wire), a fully outfitted cab interior with see-through windows, and wire grab irons. 11" long.

About Our Models... Unless otherwise noted, all of the HO scale locomotive models in this catalog feature a finely molded body, glazed windows, a powerful motor, a die cast chassis, RP25 metal wheels, magnetically operated knuckle couplers, and arrive ready to run. Typically, most N scale rolling stock models come with plastic wheels. A final reminder: products in this catalog are not toys; they are intended for modelers and railfans ages 14 and above.

If, in the catalog, you see one of these badges, it means that the loco next to it has built-in DCC or DCC & sound! Unless otherwise noted, if a product is "DCC-equipped," it works on standard DC or DCC systems.

1 Bachmann
DCC – Equipped for speed, direction, and lighting.
DCC Sound Value – Equipped for speed, direction, lighting, and 6 standard sounds.
DCC & Sound – (Bachmann Spectrum) – Equipped for speed, direction, lighting, and sounds, including engine startup and shutdown, bell, air horn, coupler crash, dynamic brakes and brake squeal, radiator fans, and more.

3 Athearn Genesis
DCC – Equipped for speed, direction, and lighting.
DCC & Sound – Equipped for speed, direction, lighting, and 19 sounds such as horn, bell, coupler crash, dynamic brakes and brake squeal, and air release.

41' Steel Boxcars

Built with a super heavy-weight construction, these 41' steel boxcars feature opening doors and complete underbody detail! In addition, they have realistically molded roofwalks (with rivets) and brake-wheels to give them an even more life-like appearance. Each HO scale model is accurately painted to portray their prototype on a high-quality plastic body shell. 5 3/4" long.
